8:30-9:00 Registration

9:00-10:15 How to Clear the Mess on Your Desk— (Part 1: Papers, Photos, Documents)
Learn tips and tricks to organize your papers, photos, documents, research, DNA cousins, re-search trips, and digital records. Organize yourself in a way that leaves you more time for the fun stuff of genealogy—sharing, publishing and finding even more!

10:15-10:30 Break

10:30-11:45 How to Clear the Mess on Your Desk— (Part 2: Digital Organization) Incorporating Family Tree Maker software and other family tree software options. Learn strategies to build a robust, portable, sourced, cloud-synchronized digital tree. Learn about privacy options and how to backup your tree to prevent losing everything. Learn strategies to maximize your DNA information—messaging matches, preparing boilerplate language to streamline communications and sharing trees.

11:45-1:00 Lunch. Prepared by OGS Trustee, Deborah Deal

1:00-2:15 Using Tools to Organize and Analyze Your Autosomal DNA Matches—Now that you have your results, how do you organize it to make the most of the information? Learn how to make your matches work for you. Use tools like Excel and OneNote to get yourself organized and make progress in your search. Learn how to transfer your DNA matches from the five major DNA companies into spreadsheets. Then learn some approaches to get the most out of your results.

2:15-2:30 Break

2:30-3:45 Organize Your DNA Matches with Sorting, Filtering, and Clustering Tools—Learn how to sort your matches (Leeds Method) and use clustering tools to build a master list of how each match is related to you! Learn to take advantage of inferred matches of your siblings to add more depth and data to your list. And develop a plan for identifying each first, second, and third cousin match in your match list.

3:45-4:00 Break

4:00-4:30 Drawing, Chapter Announcements and Closing.
